About Us

Sirintel Technologies is a topmost service provider based on Information Technology (IT), who ensures to provide essential solution for software needs with premium results. We have a team of professionals who are highly unswerving and focused on first-class customer service to earn their fullest contentment. Our main aim is to bring surefire results through our hard work in order to develop enduring relationships with our customers. We vanity ourselves for having pioneering talent and agility for offering right solution for our valuable customers and in providing them with a wonderful support network which is more analogous to develop personal relationship apart from just creating business partnership.

We are renowned to offer expert delivery of services!

Our campaign has owned solid reputation through professionalism and not through nonsense approach to meet the challenges presented by our customer's support requirements and ongoing needs. We are renowned to offer expert delivery of services through our highly-trained and qualified technicians. Latest advancements to IT services had lagged human resources, new technologies and skill level challenges are the significant reasons to get our help to transform business operations with vital methods which you want. Our customers belonging to various niches have gained significant results in business by employing our top-notch solution and have appreciated us for hard work and efforts. We always rank number one in satisfaction of customers.

Why IN-Plant training Important

IPT, also known as Inplant training, is a widely sought after practice required by the students. The major purpose of inplant training would be to polish the knowledge acquired through academics with the enhanced assistance of industry practices. Students who have undergone inplant training are welcomed by the companies as they are well acquainted with such kind of trainings. It is likely that the academic studies only imparts theoretical knowledge to the students and these inplant trainings pave way for students to gain a practical knowledge of what they learnt theoretically and from computers. With inplant trainings, students can experience the exposure towards industrial happenings, as they are liable to work in such conditions right after their studies.

Benefits of IN-Plant Training

In Plant Training (IPT) will offer an industrial exposure to the college students in order to develop their career in the manner for of high tech industrial needs. We are offering in plant training to the student. Here students are basically getting guided so as to come out of their interest in different streams and what are the fundamental concepts they understand on that specific domain. After the successful completion of studies, every student has to face this competitive world with their gained knowledge and skill to face many difficulties and acquire suitable solutions that has to solve in minimum period of time. This sort of training allows you to get more practical knowledge.
